

# Education Partnership Coordinator – New South Wales (NSW) Growth

## About Ardoch

Ardoch is a national not-for-profit organisation focused on improving educational outcomes for children and young people experiencing disadvantage.

We deliver tailored education and wellbeing programs which address barriers to education by providing vital learning and wellbeing resources and activities. These programs build children and young people's confidence, aspirations, social skills and wellbeing. These are essential elements for enabling full engagement in education and a love of learning. Engagement in education is the key to opening future pathways and possibilities. Without it, the cycle of disadvantage and inequity continues.

We broaden horizons for children by providing access to excursions and inspiring learning experiences. We mobilise volunteers to support students in partner schools to act as positive adult role models who invest time, share knowledge and experience, and actively demonstrate their interest in a child's future. We advocate for change so that key issues such as inequities in Australia's education system are at the forefront.

Ardoch works with thousands of children and young people in primary and secondary schools in Victoria, New South Wales, Queensland, and Western Australia. We achieve this by linking schools, businesses and communities to support programs and activities to assist schools, children and their families.

**Vision** Our vision is that every child's potential is realised through full participation in education.

**Values**

- **Empowerment:** We recognise people's strengths and uniqueness, amplify their voices, and support them to make their own choices.
- **Learning:** We value the power of education to change lives, and continually learn from research, students, partners, communities and each other.
- **Impactful:** We strive to create the most meaningful change for the students we support.
- **Community:** We connect diverse voices and perspectives and collaborate to respond to the unique needs of schools and their communities.
- **Accountability:** We own our actions and take responsibility for creating a fair, respectful and positive environment
